BIDDER AFFIDAVIT AND ASSURANCE OF COMPLIANCE

I certify that I am the authorized representative of the Bidder submitting the foregoing Bid with the legal authority to bind the Bidder to this Affidavit and Assurance of Compliance:

1. The Bidder is submitting this Bid under its full and complete legal name, and the Bidder legally exists in good standing in the jurisdiction of its residence.
2. The Bidder warrants that the information provided in this Bid is true, correct, and reliable for purposes of evaluation for contract award.
3. The Bidder, including any person assisting with the creation of this Bid, has arrived at this Bid independently and the Bid has been created without colluding with any other person, company, or parties that have or will submit a Bid under this solicitation; and the Bid has in all respects been created fairly without any fraud or dishonesty. The Bidder has not directly or indirectly entered into any agreement or arrangement with any person or business in an effort to influence any part of this solicitation or operations of a resulting contract; and the Bidder has not taken any action in restraint of free trade or competitiveness in connection with this solicitation. Additionally, if the Bidder has worked with a consultant on the bid, the consultant (an individual or a company) has not assisted any other entity that has submitted or will submit a bid for this solicitation.
4. To the best of its knowledge and belief, and except as otherwise disclosed in the Bid, there are no relevant facts or circumstances which could give rise to an organizational conflict of interest. An organizational conflict of interest exists when a vendor has an unfair competitive advantage or the vendor's objectivity in performing the contract is, or might be, impaired.
5. The contents of the Bid have not been communicated by the Bidder or its employees or agents to any person not an employee or legally authorized agent of the Bidder and will not be communicated to any such persons prior to Due Date of this solicitation.
6. If awarded a contract, the Bidder will provide to Sourcewell Participating Entities the equipment, products, and services in accordance with the terms, conditions, and scope of a resulting contract.
7. The Bidder possesses, or will possess before delivering any equipment, products, or services, all applicable licenses or certifications necessary to deliver such equipment, products, or services under any resulting contract.
8. The Bidder agrees to deliver equipment, products, and services through valid contracts, purchase orders, or means that are acceptable to Sourcewell Participating Entities. Unless otherwise agreed to, the Bidder must provide only new and first-quality products and related services to Sourcewell Participating Entities under an awarded Contract.
9. The Bidder will comply with all applicable provisions of federal, state, and local laws, regulations, rules, and orders.
10. The Bidder understands that Sourcewell will reject IFB Bids that are marked "confidential" (or "nonpublic," etc.), either substantially or in their entirety. Under Minnesota Statutes Section 13.591, subdivision 4, all proposals are considered nonpublic data until the evaluation is complete and a Contract is awarded. At that point, proposals become public data. Minnesota Statutes Section 13.37 permits only certain narrowly defined data to be considered a "trade secret," and thus nonpublic data under Minnesota's Data Practices Act.
11. Bidders its employees, agents, and subcontractors are not:
