Price Adjustments

The District may, in its sole discretion, make an equitable adjustment in the contract terms and/or pricing if pricing or availability of supply are affected by extreme and unforeseen volatility in the marketplace, that is, by circumstances that satisfy all of the following criteria:

- a) The volatility is due to causes wholly beyond the vendor's control
- b) The volatility affects the marketplace or industry, not just the particular vendor's source of supply
- c) The effect on pricing or availability of supply is substantial
- d) The volatility so affects the vendor that continued performance of the contract would result in substantial loss or financial hardship.

The determination as to whether a situation represents "extreme" volatility of the marketplace and/or whether the effect on pricing or availability is "substantial" shall be solely at the discretion of the District.

NOTE: The Contractor must agree that during a declared disaster situation that any bid items with a markup will be billed at actual cost without any mark-up permitted.
