PLANNING REPORT

Project Type	Number	Name
Site Plan	SP25-005	Cameron Cove

Representatives	
Agent	Holland & Knight LLP (c/o Janna Lhota)
Applicant	Sunpointe Cove LLC (c/o Carlos Burno)
Landowner	Sunpointe Cove LLC (c/o Carlos Burno)

Town	
Council District	2
Assigned Planner	David Abramson, Deputy Planning & Zoning Manager
Planning Report Date	01/29/26, 05/07/26

Process			
Public Participation (Online)	Presentation Available	From: 10/06/25	To: 10/27/25
Public Notice	N/A		
Board Review	02/10/26		
Council Review (1 st Reading)	03/04/26 05/20/26	Supermajority Required	N/A
Council Review (2 nd Reading)	N/A	Supermajority Required	N/A

Location	
Folio/Identification Number	50-41-21-12-0070
Address	2471-2871 Southwest 79 th Avenue
General Location	On the west of Southwest 79 th Avenue, between Southwest 24 th Street and Southwest 30 th Street
Nearest North/South Road	University Drive
Nearest East/West Road	Nova Drive (Southwest 24 th Street)
Nearby Equestrian Trail	N/A
Nearby Recreational Trail	Pine Island Ridge Trail
Nearby Park	Davie Golf and Country Club
Nearby Bus Route	Routes 2 and 12

Description	
Overall Size	22.7 Gross Acres/21.5 Net Acres
Existing Use	Multi-Family Homes
Future Land Use	Residential 10 Dwelling Units/Acre
Zoning	Medium High Dwelling (RM-16) District
Overlay District	N/A
Design Regulation	N/A
Redevelopment Area	N/A
Drainage District	Central Broward Water Control District
Utilities Provider	City of Sunrise
Right-of-Way Acquisition	N/A

Phone: 954.797.1103 • www.davie-fl.gov

Key Points

- The proposal would modify the existing site by filling an on-site lake to accommodate a new parking lot and removing one (1) of two (2) community pools and patio areas to allow for construction of two (2) three-story apartment buildings. The buildings would contain a total of seventy-two (72) two-bedroom dwelling units. The project also includes reconstruction of the community clubhouse and the addition of new parking spaces throughout the site.
- While the proposed density exceeds that typically permitted under the Residential 10 Dwelling Units per Acre land use category, the applicant is requesting approval of additional density through Policy 2.16.3 of the Broward County Land Use Plan (see attached). Use of the density bonus provisions of Policy 2.16.3 is at the discretion of the Town Council.
- The petitioner has satisfied the public participation requirements (see attached).

History

Zoning Information:

1. Annexation: The subject site was annexed into the Town of Davie through the adoption of Ordinance No. 73-047 on November 21, 1973.

Previous Project(s):

1. Plat - Arrowhead Golf and Tennis Club Phase III: This request was approved by the Town of Davie Town Council through Ordinance No. 79-049 on September 5, 1979, and then later recorded in Broward County Records (P.B. 109, PG. 30).
2. Site Plan - Cameron Cove (fka. Arrowhead Golf and Tennis Club Phase III): This request was approved by the Town of Davie Town Council on November 25, 1980.
3. Site Plan SP06-05-11 Cameron Cove: This request was approved by the Town of Davie for a new parking lot expansion.

Concurrent Project(s)

1. Variance (V25-122, Driveway Width)
2. Delegation (DG 25-006, Restrictive Note)
3. Site Plan (SP25-005, 72 New Multi-Family Homes)

Analysis

1. Site: The subject site is proposed to be developed with 72 multi-family housing units, spread across two three-story residential buildings. The new residential units would share existing community amenities within the Cameron Cove development, including the clubhouse and pool. A mail kiosk is located in the new parking lot, while trash dumpsters are provided throughout the existing community.
2. Architecture: The architecture of the buildings is similar to the existing Cameron Cove buildings and consists of a simple design with features such as stucco wall banding, tile roofs, stone veneer, and balconies with aluminum railings. Mechanical equipment is located on the center roof of the buildings and is shielded by parapet walls. The building color palette utilizes earth tones ranging from a white base color to gray accent colors.

TOWN OF DAVIE
PLANNING & ZONING DIVISION
8800 SOUTHWEST 36TH STREET • DAVIE, FLORIDA 33328
Phone: 954.797.1103 • www.davie-fl.gov

3. Access: The site design includes vehicular access to the new units from Southwest 24th Street and Southwest 30th Street, just off University Drive to the east, and then through the existing community.
4. Parking: The overall site design includes a total of ~~506~~ 507 parking spaces, which meets the ~~same~~ amount required by Town Code, including 11 accessible spaces properly located in front of the new buildings.
5. Traffic Concurrency: The applicant submitted a traffic statement (see attachments), which concluded that the project, including the existing multi-family units, would generate a total of 461 net daily trips, 23 net new AM peak-hour trips, and 31 net new PM peak-hour trips. The study found that the project would have a minor impact on the transportation network.
6. Lighting: The photometric design meets Town Code requirements. The proposed light fixtures are “full” cut-off and are compliant with the Town’s Night Sky ordinance.
7. Signage: The plans do not include any signage. All signs will be reviewed for Town Code compliance at the time of building permit.
8. Landscaping: The landscape design meets Town Code requirements and includes the installation of 145 new trees, relocation of 78 palm trees, and the preservation of six (6) trees in place. The applicant also proposes to remove 522 inches of non-specimen trees and will pay \$4,060 into the Tree Preservation Fund.
9. Drainage: The drainage design includes catch basins and exfiltration trenches connecting to dry retention areas and underground storage tanks. The system also includes an outfall to the adjacent lake on the west side of the project. Additional easements and/or dedications may be required by the Central Broward Water Control District (CBWCD) for drainage purposes.
10. Wildlife: A field survey was conducted by the Town’s wildlife consultant; there was no evidence of any threatened or endangered species nesting or foraging (see attachments).
11. School Capacity: The impact of new students associated with the development of garden apartments has been reviewed by the School Board of Broward County through a preliminary School Capacity Availability Determination (SCAD). The development satisfies public school concurrency, as adequate school capacity is anticipated to be available to support the proposal (see attachments).
12. Inclusionary Housing: The applicant proposes to utilize Broward County Land Use Plan Bonus Residential Density by restricting eleven (11) of the new dwelling units as “moderate-income” units (households not exceeding 120% of the area median income) for a period of 30 years. This policy provides six (6) bonus units per every one (1) moderate-income unit and does not require an amendment to the Town nor County land use plans.

Recommendations
Staff finds the application complete and suitable for further review.

Davie FL 33328

Re: Cameron Cove - Site Plan Amendment - Narrative

Dear Mr. Quigley:

Holland & Knight LLP and Craven, Thompson & Associates, Inc. represent Sunpointe Cove, LLC (“Applicant”), the owner of the Cameron Cove apartments (the “Development”) located at 2451-2871 SW 79th Avenue (the “Property” or “Cameron Cove”)(Tax Folio No. 5041-21-12-0070) in the Town of Davie (the “Town”). The Applicant seeks, among other things, to add seventy-two (72) new two-bedroom units within two new apartment buildings to diversify the current unit mix for the community. A separate application seeking to amend the Plat Note to add the additional residential units is being concurrently filed.

Description of the Property:

The Property is generally located west of University Drive between SW 24th Street and SW 30th Street and behind the Shoppes of Arrowhead. The overall Property totals 21.42 acres with the development site totaling 4.1 acres. The Property is located within the Arrowhead Golf and Tennis Club Phase III Plat (“Plat”) (Plat Book 109, Page 30). The Property is presently improved with 220 one-bedroom apartments and one two-bedroom apartment located within nine (9) three-story garden apartment buildings located throughout the Property. The initial multi-family apartment community was constructed in the mid-1980s. The overall Development is presently and will continue to be served by the following utilities: water, sewer, electric and telecommunication facilities.

While the Property is designated “Residential (10)” the Town’s Future Land Use Map, the Broward County land use designation for the Property is Medium (16) Residential. The Property is further zoned Medium-High Density Dwelling (RM-16) District.¹

Description of the Project:

Cameron Cove is a unique apartment community as 220 of the 221 apartments are all one (1) bedroom units. With Broward’s growing population, the Property has been constrained with leasing as it effectively has no two-bedroom units to offer to families who seek affordable housing options in the Town. As a result, Applicant proposes to add two (2) new three-story apartments adding a total of seventy-two (72) new two-bedroom units to create a more diverse housing mix

¹ Per Policy 2.16.3 of the BrowardNext – 2017 Broward County Land Use Plan, and as confirmed by the Broward County Planning Council, bonus residential density may be allocated and a local land use map amendment is not required where the additional units incorporate affordable housing units based on the County’s bonus formula. The current application proposes to include eleven (11) moderate-income units within the total additional seventy-two (72) units proposed. Per Policy 2.16.3(6), any allocation of bonus residential density does not require an amendment to the Broward County Land Use Plan or the local land use plan. Attached to this letter is a further letter outlining the current and proposed mix of affordable and market rate housing options that will be associated with the Development if the Application is approved.

November 14, 2025

Page 3

within the community.² The development will be accomplished by removing one of the community's two pools and partially filling one of the many lakes that service the community. In addition to the new building construction, the Applicant will be reconfiguring and adding new parking, as well as constructing a new clubhouse for the benefit of the residents. This application follows an overall refresh of the existing buildings, including new painting and upgraded balconies.

The existing apartment buildings are three-story walk-ups with pitched roofs, designed with a clean modern aesthetic through a gray and white color scheme. While the proposed building massing differs slightly, the new construction maintains the same overall feel, finishes, and building height to ensure harmony across the development. The design explores a clean, contemporary look with a gray and white color palette, featuring pitched roofs. Additionally, all balconies will be covered. The new clubhouse also reflects this same aesthetic and will enhance the community by providing an improved amenity for the residents.

Please feel free to contact our office if you have any questions or require further information to accept this application.

Sincerely yours,

HOLLAND & KNIGHT LLP

Janna P. Lhota

JPL:jjk

² Included in the Application submittal is a Traffic Impact Statement prepared by JFO Group Inc. which provides information on the vested traffic generated by the existing uses and the anticipated traffic to be generated by the seventy-two (72) new units. The net new trips associated with the proposed new units totals 461 daily trips, 23 (5 In/18 Out) and 31 (20 In/11 Out) trips respectively. Per the applicable standards, the addition of the seventy-two (72) units to the existing Development will have a *de minimis* impact on the surround transportation network as all roadway links affected by the project would consume less than one percent (1%) of the adopted LOS.

Mr. David Abramson
Deputy Planning and Zoning Manager
Town of Davie
8800 SW 36 Street
Davie FL 33328

Re: Cameron Cove – Inclusionary Housing

Dear Mr. Abramson:

As you are aware, Holland & Knight LLP represents Sunpointe Cove, LLC (“Applicant” or “Owner”), the owner of the Cameron Cove apartments located at 2451-2871 SW 79th Avenue (the “Property” or “Cameron Cove”)(Tax Folio No. 5041-21-12-0070) in the Town of Davie (the “Town”). The Applicant is currently processing several applications¹ with the Town to add seventy-two (72) new two-bedroom units within two new apartment buildings to diversify the current unit mix for the community.

As the Applicant is only seeking to add seventy-two (72) new residential units, the provisions of Section 12-575 of the Town’s Land Development Code do not apply. Notwithstanding the foregoing and as the Applicant is taking advantage of BrowardNext Policy 2.16.3 to accommodate the additional units,² we would like to provide the following information regarding the existing and proposed affordable housing opportunities proposed in connection with the Property.

¹ For reference, the pending applications include a Site Plan amendment (Case No. 2025-00050005), a Delegation Request to amend the restrictive note on the Plat (Case No. 2025-00050006) and a single variance request (Case No. V25-122).

² Per Policy 2.16.3 of the BrowardNext – 2017 Broward County Land Use Plan, and as confirmed by the Broward County Planning Council, bonus residential density may be allocated and a local land use map amendment is not required where the additional units incorporate affordable housing units based on the County’s bonus formula. The current application proposes to include eleven (11) moderate-income units within the total additional seventy-two (72) units proposed.

Description of the Property:

The Property is generally located west of University Drive between SW 24th Street and SW 30th Street and behind the Shoppes of Arrowhead. The overall Property totals 21.42 acres with the development site totaling 4.1 acres. The Property is located within the Arrowhead Golf and Tennis Club Phase III Plat (“Plat”) (Plat Book 109, Page 30). The Property is presently improved with 220 one-bedroom apartments and a single two-bedroom apartment located within nine (9) three-story apartment buildings located throughout the Property. The apartment community was constructed in the mid-1980s.

While the Property is designated “Residential (10)” on the Town’s Future Land Use Map, the Broward County land use designation for the Property is Medium (16) Residential. The Property is further zoned Medium-High Density Dwelling (RM-16) District.³

Description of the Project:

Cameron Cove is a unique apartment community as 220 of the 221 apartments are all one (1) bedroom units. With Broward’s growing population, the leasing of the Property has been constrained as it effectively has no two-bedroom units to offer to families who seek housing

³ Per Policy 2.16.3(6), any allocation of bonus residential density does not require an amendment to the Broward County Land Use Plan or the local land use plan.

options in the Town. As a result, Applicant proposes to add two (2) new three-story apartments adding a total of seventy-two (72) new two-bedroom units to create a more diverse housing mix within the community. The development will be accomplished by removing one of the community's two pools and partially filling one of the many lakes that service the community. In addition to the new building construction, the Applicant will be reconfiguring and adding new parking, as well as constructing a new clubhouse for the benefit of the residents. This application follows an overall refresh of the existing buildings, including new painting and upgraded balconies.

Affordable and Inclusionary Housing Program

The original 221-unit Cameron Cove development was developed through bonds issued by the Florida Housing Finance Agency ("Florida Housing") in 1985 and which was subject to, until this year, a Land Use Restriction Agreement ("LURA") that restricted at least thirty (30%) percent of the units as affordable. While the LURA was set to expire on June 15th, the Owner voluntarily extended the LURA for another five (5) years committing to set aside seventy-one (71) units for low-income households (equal to or below eighty percent (80%) of area median income for Broward County)("2025 LURA"). The 2025 LURA will automatically extend in 2030 (and 2035) for additional five (5) year terms until Owner provides notice to Florida Housing otherwise. In connection with these units, the Owner provides information as required by the Compliance Monitoring and Service Agreement to Florida Housing.

As noted earlier, the additional seventy-two (72) two-bedroom units proposed as part of the current Application are allowed by virtue of Policy 2.16.3 of the BrowardNext – 2017 Broward County Land Use Plan. Policy 2.16.3 allows the allocation of bonus residential density without the need of a local land use map amendment where the additional units incorporate affordable housing units based on the County's bonus formula. The current Application proposes to include eleven (11) moderate-income units⁴ within the total additional seventy-two (72) units proposed. Thus, with the approval of this Application, the Property will diversify its inventory of affordable units to now include two-bedroom units, where only one-bedroom units have historically been provided.

As required by Policy 2.16.3, Owner will provide to the Town a restrictive covenant covering the seventy-two (72) new two-bedroom units assuring that the eleven (11) bonus units will be maintained for a period of at least thirty (30) years. These units will be located within one or both of the two new three-story apartment buildings proposed as part of the Application and will be moderate-income units per Policy 2.16.3 and will be advertised similar to the existing low-income affordable units.

⁴ Moderate-income person includes individuals having a total annual anticipated income for the household that do not exceed 120 percent of the median annual income adjusted for family size for households within Broward County.

PLANNED AND FUNDED CAPACITY ADDITIONS IN THE ADOPTED DISTRICT EDUCATIONAL FACILITIES PLAN

School(s)	Description of Improvements
Silver Ridge	There are no scheduled classroom additions in the Adopted DEFP that would increase the reflected FISH capacity of the school.
Indian Ridge	There are no capacity additions scheduled in the ADEFP that will increase the reflected FISH capacity of the school.
Western	There are no capacity additions scheduled in the ADEFP that will increase the reflected FISH capacity of the school.

Students generated are based on the student generation rates contained in the currently adopted Broward County Land Development Code. Information contained herein is current as of the date of review. A traditional cohort survival methodology is used to project school-by-school District traditional school enrollment out over the next five years, and a proportional share of charter school enrollment is used to project future charter school enrollment by school level Districtwide. For more information: <https://www.browardschools.com/Page/34040>. The benchmark enrollment count taken on the first Monday following Labor Day is used to apply individual charter school enrollment impacts against school facility review processes.

Comments

There are a total of 293 garden apartment units permitted on the site, as confirmed by the applicant, of which 221 units have been constructed and 72 units remain unbuilt. The site plan application proposes 293 (220 one-bedroom or less and 73 two-bedroom) garden apartment units, which are anticipated to generate 44 (21 elementary, 9 middle, and 14 high) students into Broward County Public Schools.

Please be advised that this application was reviewed utilizing 2024/25 school year data because the current school year (2025/26) data will not be available until updates are made utilizing the five-year student enrollment projections. The school Concurrency Service Areas (CSA) serving the project site in the 2024/25 school year include Silver Ridge Elementary, Indian Ridge Middle and Western High Schools. Based on the Public School Concurrency Document (PSCPD), all three schools are currently operating below the Level of Service Standard (LOS), which is established as the higher of 100% gross capacity or 110% permanent capacity. Incorporating the cumulative students anticipated from this project as well as approved and vested developments anticipated to be built within the next three years (2024/25- 2026/27), these schools are expected to maintain their current status through the 2026/27 school year. Additionally, the school capacity or Florida Inventory of School Houses (FISH) for the impacted schools reflects compliance with the class size constitutional amendment.

Charter schools located within a two-mile radius of the site in the 2024/25 school year are depicted above. Students returning, attending, or anticipated to attend charter schools are factored into the five-year student enrollment projections for District schools. Enrollment projections are adjusted for all elementary, middle, and high schools impacted by a charter school until the charter school reaches full enrollment status.

To ensure maximum utilization of the impacted CSA, the Board may utilize school boundary changes to accommodate students generated from developments in the County.

Capital Improvements scheduled in the currently Adopted District Educational Facilities Plan (DEFP), Fiscal Years 2024/25 to 2028/29 regarding pertinent impacted schools are depicted above.

This application satisfies public school concurrency on the basis that there is adequate school capacity anticipated to be available to support the project as proposed. This preliminary determination shall be valid for either the end of the current school year or 180 days, whichever is greater for a maximum of 293 (220 one-bedroom or less and 73 two-bedroom) garden apartment units, and conditioned upon final approval by the applicable governmental body. As such, this Preliminary School Capacity Availability Determination (SCAD) Letter will expire on April 13, 2026. This preliminary school concurrency determination shall be deemed to be void unless prior to the referenced expiration of the preliminary SCAD, notification of final approval to the District has been provided, and/or an extension of this preliminary SCAD has been requested in writing and granted by the School District. Please be advised that the expiration of the SCAD will require the submission of a new application and fee for a new public school concurrency determination. Upon the District's receipt of sufficient evidence of final approval, which shall minimally specify the number, type, and bedroom mix for the approved residential units, the District will issue and provide a final SCAD letter for the approved units, which shall ratify and commence the vesting period for the approved residential project.

Please be advised that if a change is proposed to the development, which increases the number of students generated by the project, the additional students will not be considered vested for public school concurrency.

Re: Cameron Cove - 2871 SW 79 Avenue (Davie)
TRAFFIC IMPACT STATEMENT
Property ID: 5041-21-12-0070

Dear Alan,

JFO Group Inc. has been retained to prepare a traffic statement to determine compliance with the *Town of Davie Unified Land Development Code* associated with a site plan application to add 72 multifamily homes to the subject site which currently includes 221 multifamily units.

The site is located west of University Drive, between SW 30th Street and Nova Drive in the Town of Davie, Florida. Figure 1 shows the project location in relation to the transportation network. Property ID associated with this project is 5041-21-12-0070. A copy of the property appraiser information for the site is included as Exhibit 1. Exhibit 2 includes a copy of the latest approved site plan while Exhibit 3 includes a copy of the proposed site plan. Project buildout is expected in the year 2028.

Figure 1 : Project Location

Project trip generation rates used for this analysis were based on the 11th Edition of the Institute of Transportation Engineers Trip Generation Manual. Table 1 shows the rates used in order to determine the trip generation for Daily, AM, and PM peak hour conditions. When fitted curve equations were not available, weighted average rates were used. Similarly, when data plots had at least 20 data points and a fitted curve equation with an R² of at least 0.75, fitted curve equations were used. Exhibit 4 includes a copy of the ITE trip generation rates and equations.

Table 1: Trip Generation Rates

Land Use	ITE Code	Daily Trip Gen.	AM Peak Hour			PM Peak Hour		
			In	Out	Total	In	Out	Total
Townhomes	220	T = 6.41(X) + 75.31	24%	76%	T = 0.31(X) + 22.85	63%	37%	T = 0.43(X) + 20.55

Table 2 summarizes the net Daily, AM, and PM peak trips potentially generated by the vested trips under the existing conditions and the proposed development. As shown in Table 2, the net daily, AM and PM peak trips potentially generated due to the proposed changes are 461, 23 (5 In/18 Out) and 31 (20 In/11 Out) trips respectively.

Table 2: Trip Generation

Land Use	Intensity	Daily Traffic	AM Peak Hour			PM Peak Hour		
			In	Out	Total	In	Out	Total
VESTED/EXISTING DEVELOPMENT								
Multifamily (low-Rise)	221 DUs	1,492	22	69	91	73	43	116
Net Vested Traffic		1,492	22	69	91	73	43	116
PROPOSED DEVELOPMENT								
Multifamily (low-Rise)	293 DUs	1,953	27	87	114	93	54	147
Net Proposed Traffic		1,953	27	87	114	93	54	147

Figure 2 illustrates the proposed trip distribution associated with the project. Table 3 identifies the roadways most impacted by the proposed amendment, detailing the number of lanes, existing traffic volumes, adopted level of service (LOS), and current LOS for each roadway segment. Similarly, Table 3 presents the projected LOS for the affected roadways under both existing conditions and the long-range planning horizon.

The proposed changes to the Cameron Cove property have been evaluated in accordance with the Town of Davie Unified Land Development Code. This analysis demonstrates that the addition of 72 multifamily units to the existing 221-unit development will have a *De Minimis* impact on the transportation network, as all roadway links affected by the project would consume less than one percent (1%) of the adopted level of service capacity.

Furthermore, Nova Drive and University Drive will be backlogged under background traffic conditions in the year 2045. Therefore, no additional improvements beyond those necessary to address the existing deficiencies due to background traffic are required. According to Florida Statutes, for concurrency purposes, any such necessary improvements are considered to be in place.

As a result, this analysis confirms that the proposed changes to the Cameron Cove development comply with the Town of Davie Unified Land Development Code and do not require a Traffic Impact Analysis.

Sincerely,

JFO GROUP INC

Land Use: 220 Multifamily Housing (Low-Rise)

Description

Low-rise multifamily housing includes apartments, townhouses, and condominiums located within the same building with at least three other dwelling units and that have two or three floors (levels). Various configurations fit this description, including walkup apartment, mansion apartment, and stacked townhouse.

- A walkup apartment typically is two or three floors in height with dwelling units that are accessed by a single or multiple entrances with stairways and hallways.
- A mansion apartment is a single structure that contains several apartments within what appears to be a single-family dwelling unit.
- A fourplex is a single two-story structure with two matching dwelling units on the ground and second floors. Access to the individual units is typically internal to the structure and provided through a central entry and stairway.
- A stacked townhouse is designed to match the external appearance of a townhouse. But, unlike a townhouse dwelling unit that only shares walls with an adjoining unit, the stacked townhouse units share both floors and walls. Access to the individual units is typically internal to the structure and provided through a central entry and stairway.

Multifamily housing (mid-rise) (Land Use 221), multifamily housing (high-rise) (Land Use 222), affordable housing (Land Use 223), and off-campus student apartment (low-rise) (Land Use 225) are related land uses.

Land Use Subcategory

Data are presented for two subcategories for this land use: (1) not close to rail transit and (2) close to rail transit. A site is considered close to rail transit if the walking distance between the residential site entrance and the closest rail transit station entrance is ¼ mile or less.

Additional Data

For the three sites for which both the number of residents and the number of occupied dwelling units were available, there were an average of 2.72 residents per occupied dwelling unit.

For the two sites for which the numbers of both total dwelling units and occupied dwelling units were available, an average of 96.2 percent of the total dwelling units were occupied.

The technical appendices provide supporting information on time-of-day distributions for this land use. The appendices can be accessed through either the ITripGen web app or the trip

generation resource page on the ITE website (<https://www.ite.org/technical-resources/topics/trip-and-parking-generation/>).

For the three sites for which data were provided for both occupied dwelling units and residents, there was an average of 2.72 residents per occupied dwelling unit.

It is expected that the number of bedrooms and number of residents are likely correlated to the trips generated by a residential site. To assist in future analysis, trip generation studies of all multifamily housing should attempt to obtain information on occupancy rate and on the mix of residential unit sizes (i.e., number of units by number of bedrooms at the site complex).

The sites were surveyed in the 1980s, the 1990s, the 2000s, the 2010s, and the 2020s in British Columbia (CAN), California, Delaware, Florida, Georgia, Illinois, Indiana, Maine, Maryland, Massachusetts, Minnesota, New Jersey, New York, Ontario (CAN), Oregon, Pennsylvania, South Carolina, South Dakota, Tennessee, Texas, Utah, and Washington.

PARCEL FOLIO NOS. 504121120070
WILDLIFE FIELD ASSESSMENT**

INTRODUCTION

The scope of this report is to provide a Wildlife Field Assessment to determine whether the proposed activity may adversely impact any state or federally listed endangered or threatened species, in accordance with the Town of Davie Code of Ordinances, Chapter 12, Article VI, Division 4, Section 12-176 – Wildlife Protection. A qualified field biologist conducted a site visit on January 28th, 2026, to assess the project area for the presence of any protected wildlife species regulated under state and federal law, including those listed by the Florida Fish and Wildlife Conservation Commission (FWC) and the U.S. Fish and Wildlife Service (USFWS).

SITE LOCATION

The project site, known as Cameron Cove (Project Number 2025-00050005), is located at 2471-2871 Southwest 79th Avenue in Broward County. The project site includes part of one (1) parcel identified by Folio Number 504121120070. See Appendix B – Site Plan. The project site can be generally described as a stormwater retention pond and the waterfront property of an apartment complex.

QUALIFICATIONS

Miller Legg (ML) is a statewide award-winning consulting firm that brings together the elements of engineering, planning, landscape architecture and urban design, surveying, environmental consulting, environmental engineering and geographic information systems services. Field biologists have advanced degrees in the biological fields and extensive experience in identifying Florida faunal and floral species. Certifications include: Professional Wetland Scientist, Certified Environmental Professional, Wetland Delineation Certification, Certified Landscape Inspector, and Certified Arborist.

OBSERVATIONS

During the field review, a ML biologist conducted pedestrian transects across the project site, working generally from west to east and north to south. A large retention lake occupies the majority of the project site. Very sparse emergent and aquatic plants were observed within or along the periphery of the lake. Landscaped trees and shrubs of native and oriental varieties were observed throughout the project site. These were planted among sodded lawn areas and hardscape, located east of the retention lake. Notable tree species observed within the site included slash pine (*Pinus elliottii*), cabbage palm (*Sabal palmetto*), gumbo limbo (*Bursera simaruba*), pink trumpet (*Tabebuia heterophylla*), weeping bottlebrush (*Callistemon viminalis*). Notable shrub species observed included dwarf schefflera (*Schefflera arboricola*) and croton (*Codiaeum variegatum*) hedges. In close proximity to the project site, but outside of the proposed footprint, mature black olives (*Terminalia buceras*) were located in the adjacent eastern parking lot. Potential roosting trees and buildings were visually inspected for potential roosting features suitable for the Florida

bonneted bat (*Eumops floridanus*), including cavities, exfoliating bark, and other features that could provide roosting opportunities.

Several wood stork (*Mycteria americana*), a federally Threatened species, and white ibis (*Eudocimus albus*), a state Imperiled species, were observed loafing and traveling through the site along the edge of the retention lake and perched within nearby trees. The man-made lake shoreline consists of what appeared to be engineered banks with permanently inundated depths exceeding typical wood stork foraging ranges and lacking extensive shallow littoral shelves. No foraging, nesting, or courtship behavior was observed. As such, the shoreline does not function as suitable wood stork foraging habitat. See Appendix A – Photo Pages. Within hedges and trees onsite, several bird nests were observed. However, no signs of active roosting, nesting or denning, such as guano staining, audible chirps, eggs, un-fledged young or defensive behaviors were observed during the field review. No other protected species, other than Migratory Bird Treaty Act (MBTA) protected birds, were observed during the site visit. It should be noted that protected species may not be harassed or harmed and must leave the site naturally prior to any construction and related work activities.

The federal Migratory Bird Treaty Act (MBTA) protects migratory birds’ in-use nests, eggs, and nest-dependent nestlings from “take” and other means of harm or collection. However, the MBTA does not prohibit the destruction of *inactive* migratory bird nests that are empty, contain non-viable eggs or young, or are being built, but do not yet have an egg in them. No in-use nests were observed during this field visit. See table, below, regarding Endangered Species Act (ESA) and state protected species with potential to be observed during the assessment.

Common Name	Scientific Name	Habitat Observed	Species Observed
Florida Burrowing Owl	<i>Athene cunicularia floridana</i>	No	No
Florida Panther	<i>Puma concolor</i>	No	No
Eastern Black Rail	<i>Laterallus jamaicensis spp.</i>	No	No
Eastern Indigo Snake	<i>Drymarchon couperi</i>	No	No
Everglade Snail Kite	<i>Rostrhamus sociabilis plumbeus</i>	No	No
Florida Bonneted Bat	<i>Eumops floridanus</i>	Yes	No
Gopher Tortoise	<i>Gopherus polyphemus</i>	No	No
Wood Stork	<i>Mycteria americana</i>	No	Yes
White Ibis	<i>Eudocimus albus</i>	No	Yes
Southeastern Beach Mouse	<i>Peromyscus polionotus niveiventris</i>	No	No

Notes: Relevant ESA / state-protected species found on IPAC and FNAI species list.

SUMMARY

On January 28, 2026, Miller Legg conducted a wildlife field assessment to determine if proposed activities, on the Cameron Cove property and in accordance with the Town of Davie Wildlife Protection Ordinance, may impact state or federally listed species. The project site consist of a

stormwater retention pond and the waterfront property of an apartment complex that includes native and ornamental trees.

Trees, shrubs, and man-made structures were visually inspected for active bird nesting and potential Florida bonneted bat roosting habitat, but no signs of roosting or active nesting were observed. Open areas were inspected for evidence of burrowing activity; however, none were found. At the time of the field review, federally protected wood stork and state protected white ibis were observed, however, not actively foraging or displaying nesting behaviors. It should be noted that protected species may not be harassed or harmed and must leave the site naturally prior to any construction and related work activities.

PUBLIC PARTICIPATION REPORT
SITE PLAN, VARIANCE, AND DELEGATION REQUEST FOR A
PLAT NOTE AMENDMENT (SP25-001, V25-122, DG25-006)
CTA PROJECT NO.: 24-0035-001-01**

Dear Mr. Abramson:

Our video presentation for the Saddlebridge Downtown Davie development has been published via YouTube starting on October 6, 2025 and lasting for 21 days as required by the Town of Davie. During this time, we received one phone call and 3 emails from neighboring residents who wished to express their concerns and gather additional information. The following are responses to comments involving this project:

1. Comment/response via email from Dr. Michael Varvaro:

*Resident of Arrowhead Condominiums, Davie
Received October 18, 2025 at 7:01 pm*

Comment Received: I am writing as a nearby property owner to strongly oppose the proposed Cameron Cove development at 2451–2871 SW 79th Avenue (Project #SP25-005, DG25-006, V25-122). After reviewing the project’s scope and location, I believe it is fundamentally incompatible with the surrounding community and should be denied.

*Comment No. 1: Land-Use Incompatibility
The proposed three-story multi-family buildings introduce a level of density and activity that conflicts with the quiet, low-intensity, recreational character of the adjacent golf course and surrounding neighborhood. This corridor functions as a long-standing open-space buffer that defines the area’s identity. Replacing it with dense residential construction would irreversibly alter that character and diminish the peaceful enjoyment of nearby homes.*

*Comment No. 2: Noise, Lighting, and Visual Impacts
This project’s scale, height, and lighting would create substantial noise and light pollution inconsistent with its surroundings. The introduction of nighttime illumination, HVAC noise, and upper-*

CRANEN THOMPSON

& ASSOCIATES INC.

Engineers
Planners
Surveyors
Landscape Architects

story balconies overlooking the golf course would permanently disrupt the quiet recreational environment.

Comment No. 3: *Traffic and Infrastructure Concerns*

SW 79th Avenue is a local road not designed for the traffic volume that 72 additional housing units will generate. The increased congestion would harm safety and degrade the tranquil residential atmosphere that currently exists.

Comment No. 4: *Drainage and Environmental Risk*

The replacement of green space with large impervious areas raises legitimate concerns over storm-water runoff toward the golf course and nearby properties. This area already experiences localized flooding, and the additional load would make it worse.

Comment No. 5: *Variance and Precedent*

Variance V25-122 appears to request relief from existing zoning standards. Approving such a variance in this sensitive area would set a damaging precedent for future overdevelopment along the golf-course corridor and directly contradict Davie's Comprehensive Plan objectives to preserve semi-rural and recreational land uses.

For these reasons, I respectfully urge the Town of Davie to deny this application. The proposal is incompatible with surrounding uses, threatens the quiet enjoyment of adjacent properties, and undermines the established character of this community.

Please include this letter in the official public-participation record for the Cameron Cove project.

Email Response: Good morning, Michael. We are compiling all of the comments and concerns that we receive, and we will provide a response as part of our final report at the end of the required public participation period. A copy of that final report will be forwarded to you at that time.

Updated Response:

Response #1: **Land-Use Incompatibility:** Cameron Cove currently has 221 units spread across the 21.42-acre site (22.7 gross acres). The proposed site plan would add an additional 72 dwelling units bringing the total to 293 units and a density of slightly less than 13 dwelling units per acre (DU/ac). This is up from the 8.85 DU/ac that exists today. The residential lands closest to the development site are the Arrowhead Condominiums to the west (DU/ac) and Valencia Village, Escape at Arrowhead, and The Mews at Arrowhead to the north (10 DU/ac). Not only is the land use consistent with those surrounding it, but the property owner is committing to keeping a portion of the units restricted to affordable housing. This is consistent with the existing units on site.

- Response #2:** **Noise, Lighting, and Visual Impacts:** As for the site design, the new buildings would maintain the same overall feel, finish, and building height of the existing buildings. It would also provide the same housing type – multifamily – that currently exists, so the impacts to the area will be similar to what they are today. New air conditioner units will be located on the roof and screened by a parapet. Site lighting will be installed to the east of the new residential buildings and a buffer of landscaping – including trees – will be installed to the west of the buildings.
- Response #3:** **Traffic and Infrastructure Concerns:** A traffic study has been provided to the Town as part of the application package. The study concluded that the addition of the proposed 72 units will have a *de minimis* impact on the surrounding transportation network as all roadway links affected by the project would consume less than one percent (1%) of the adopted level of service.
- Response #4:** **Drainage and Environmental Risk:** All new developments in the Town of Davie are required to provide adequate drainage in order to prevent water from running off into neighboring properties. This development will incorporate a comprehensive stormwater management system that includes multiple types of drainage solutions to handle the additional impervious surfaces.
- Response #5:** **Variance and Precedent:** Variances are only granted if the Town finds that the situation is unique. This allows the approval of certain requests for relief without setting a precedent for future cases. A change that would impact other properties in the same manner as this one must be made as a change to the Land Development Code. In addition, the variance requested is due to an existing condition on the site. It allows access to a portion of the site that would not be possible given the current code regulations.

2. Comment/response via email from Cindy Engel:

Dated October 22nd, 2025 at 1:15 pm

Comment No. 1: My husband, Bruce Engel and I, Cindy Engel object to this proposed development project. Traffic congestion on University Drive between 30th street and Nova Drive is already to maximum capacity. I have lived in the area for over 40 years and have witnessed many commercial and residential development. I believe that the area is at it's maximum build out and would not like to have anymore added to this area of Davie. Please keep us advised of any decisions. Thank you

Email Response: (From David Abramson) Thank you for your correspondence regarding the proposed development project. Your comments have been received and will be kept as part of the public record, as well as included in the staff reports for this project.

Please note that Town Staff cannot provide updates or advise on the status of the project as it proceeds through the review process. However, you are welcome to sign up for Town email notifications regarding upcoming meetings and agendas, which will include this project when applicable. You may also email me from time to time should you wish to check on its current status.

Thank you again for taking the time to share your concerns and feedback.

Updated Response:

Response #1: A traffic study has been provided to the Town as part of the application package. The study concluded that the addition of the proposed 72 units will have a *de minimis* impact on the surrounding transportation network as all roadway links affected by the project would consume less than one percent (1%) of the adopted level of service. This means that the addition of the units would not make a noticeable impact on the surrounding traffic.

In addition, the proposed density does not exceed the density that would be permitted by the zoning district. The zoning district allows a maximum of 16 dwelling units per acre (DU/ac). With the additional units, the actual built density would be less than 14 DU/ac. While the Land Use designation restricts the density more than the zoning district, the County allows additional units to be allocated as long as affordable housing is included. The property owner has committed to not only extending the existing affordable units, but to also provide additional affordable units as part of this application.

3. Comment/response via Phone Call from Anna Marie:

Resident at Arrowhead Condominiums

Dated 10/22/2025

Comment No. 1: Called with concern that we were filling in the large lake on the golf course property that abuts to her condominium complex - Arrowhead Condominiums.

Response: The proposal includes filling in a much smaller retention pond located within the Cameron Cove property and adding two of the same height and style buildings to the existing apartment complex. It will not affect the drainage on the Arrowhead Condominium property, nor will it cause the lake on the golf course that she has a view towards to be filled in.

The link to the presentation was also provided via email to Anna Marie. No follow-up communication was received.

4. Comment/response via email from Julie Patterson:

Dated November 14th, 2025 at 12:41 pm

Comment No. 1: Hello David and Nicole. I am writing to you today to share my concerns about this development. David, as you may know when updates were made to 595 the arrowhead golf course was changed and several updates were made to the local canals. As a result we have experienced severe flooding in our neighborhood especially on 30th St. I am concerned that by filling in the lake for this project it may increase our flood potential. I know that this project has drainage improvements included, but I'm fearful that this will not address the issue.

I am attaching a couple of photos to demonstrate the type of flooding that we face.

Email Response: Good afternoon Julie. We are compiling all of the comments and concerns that we receive, and we will provide a response as part of our final report at the end of the

required public participation period. A copy of that final report will be forwarded to you at that time.

Updated Response:

All new developments in the Town of Davie are required to provide adequate drainage in order to prevent water from running off into neighboring properties. This development will incorporate a comprehensive stormwater management system that includes multiple types of drainage solutions to handle the additional impervious surfaces.

If you have any questions or further comments, you may contact me at (954) 739-6400 or by email medge@craventhompson.com.

Subject: Public Comment – Cameron Cove (SP25-005 / DG25-006 / V25-122)

Dear Mr. Abramson and Ms. Pastré,

I am writing as a nearby property owner to strongly oppose the proposed *Cameron Cove* development at 2451–2871 SW 79th Avenue (Project #SP25-005, DG25-006, V25-122). After reviewing the project’s scope and location, I believe it is fundamentally **incompatible** with the surrounding community and should be denied.

1. Land-Use Incompatibility

The proposed three-story multi-family buildings introduce a level of density and activity that conflicts with the quiet, low-intensity, recreational character of the adjacent golf course and surrounding neighborhood. This corridor functions as a long-standing open-space buffer that defines the area’s identity. Replacing it with dense residential construction would irreversibly alter that character and diminish the peaceful enjoyment of nearby homes.

2. Noise, Lighting, and Visual Impacts

This project's scale, height, and lighting would create substantial noise and light pollution inconsistent with its surroundings. The introduction of nighttime illumination, HVAC noise, and upper-story balconies overlooking the golf course would permanently disrupt the quiet recreational environment.

3. Traffic and Infrastructure Concerns

SW 79th Avenue is a local road not designed for the traffic volume that 72 additional housing units will generate. The increased congestion would harm safety and degrade the tranquil residential atmosphere that currently exists.

4. Drainage and Environmental Risk

The replacement of green space with large impervious areas raises legitimate concerns over storm-water runoff toward the golf course and nearby properties. This area already experiences localized flooding, and the additional load would make it worse.

5. Variance and Precedent

Variance V25-122 appears to request relief from existing zoning standards. Approving such a variance in this sensitive area would set a damaging precedent for future overdevelopment along the golf-course corridor and directly contradict Davie's Comprehensive Plan objectives to preserve semi-rural and recreational land uses.

For these reasons, I respectfully urge the Town of Davie to deny this application.

The proposal is incompatible with surrounding uses, threatens the quiet enjoyment of adjacent properties, and undermines the established character of this community.

Please include this letter in the official public-participation record for the Cameron Cove project.

Sincerely,
Dr Michael Varvaro

Subject: Cameron Cove Site plan SP25-005

To: <dabramson@davie-fl.gov>, <npastre@craventhompson.com>

Hello David and Nicole

I am writing to you today to share my concerns about this development. David, as you may know when updates were made to 595 the arrowhead golf course was changed and several updates were made to the local canals. As a result we have experienced severe flooding in our neighborhood especially on 30th St. I am concerned that by filling in the lake for this project it may increase our flood potential. I know that this project has drainage improvements included, but I'm fearful that this will not address the issue.

I am attaching a couple of photos to demonstrate the type of flooding that we face.

Mr. Abramson and Town of Davie,

As a 40 year Davie resident, I am very very against filling in a lake off University Drive to make way for a parking garage and more office buildings/homes that we don't need!

Adding traffic, light pollution, taking away a lake from the animals and fish, and 50 other obvious reasons, I am pleading with Town of Davie to NOT take another quiet space from us! I take my grandson at times over to that lake and we enjoy the surroundings.

Everyone I know tries to avoid University Drive because it's already outrageous. More construction is very frightening. Please help keep Davie as is and forego this project!

Thank you,
Shari Shine

PUBLIC PARTICIPATION OPPORTUNITY NOTICE

Date: 10/13/2025

**Re: Public Participation Opportunity Notice for: Cameron Cove
Project Number: Site Plan SP25-005, Delegation DG25-006, and Variance V25-122**

To Whom It May Concern:

The purpose of this letter is to cordially invite you to participate in the review of a proposed development project known as *Cameron Cove*. The project is located at 2451–2871 Southwest 79th Avenue [Parcel ID: 50-41-21-12-0070] and consists of two (2) new three-story multi-family residential buildings containing a total of 72 dwelling units, along with a new clubhouse, parking areas, landscaping, and drainage improvements.

Per the Town of Davie Code of Ordinances, the applicant of this project is required to conduct a thorough public participation process to ensure that property owners and residents most likely to be affected by the development have an opportunity to review and comment on the proposal prior to any formal public meetings or hearings by the Town.

The applicant has prepared a video presentation of the project. Public comments will be accepted by telephone, email, or letter. Be aware that any correspondence provided to the applicant, or the Town will become part of the public record. The online presentation will be available at the following location for at least 21 days from the date of this letter:

www.davie-fl.gov/1362/Presentations

To use QR code, use cellphone camera or QR reader app.

Please direct any inquiries regarding this project to:
